

# Black and Latinxs Students in Political Science

## NCES IPED Data 2011-2017

*Clara Bicalho*

*6/12/2020*

The descriptive data shown below was taken from the National Center for Education Statistics (NCES). The only data set that contained race and ethnicity counts by year were that of completed degrees. NCES/IPEDS Completion data do not include race/ethnicity of non-resident aliens. These are therefore excluded from the group-based counts, though these students are included in the denominator in the proportion column. Top 15 programs in Tables 1-2 are according to USNews 2017 Rankings.
